We are learning to decompose numbers. Decomposing is to separate a number into 2 parts. For example: The number 3 can be shown as 2 yellow circles and 1 red circle.

Choose 2 crayons.

Decompose the number 4 by coloring to show how it can be broken into 2 parts.

## Story Elements:

Hand your child a story book. Ask him/her to show you the following:

\*Front Cover

\*Back Cover

\*Title Page

Enjoy reading the story together.
